

I like my privacy and right to spend the evening with my family without having to be bothered by unwanted telephone calls at dinner or even later. I have personally recieved telemarketing calls numerous times up to 11 pm central time because they are calling from the west coast. I do not enjoy this! When i signed up for the telephone privacy act, 90% of my unwanted calls have stopped. Do NOT lower the standards for the telephone privacy laws. thank you - Ronald W. Necco Jr.
